## Toxic Substances Control Act (TSCA) declaration

### Toxic Substances Control Act (TSCA) declaration

Nunningen, 08.02.2022

To whom it may concern

The U.S. Environmental Protection Agency (EPA) on December 22.2020 adopted final regulations under Section 6 (h) of the Toxic Substances Control Act (TSCA) for five persistent, bio accumulative and toxic (PBT) chemicals.

This concerns the following:

- Decabromodiphenylether (decaBDE)
- Phenol, isoproylated phosphate (3:1) (PIP3:1)
- 2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

At this time, we can confirm that none of our products contain the listed substances of this regulation. However, traces of contamination in raw materials about which we have not been informed by our suppliers cannot be excluded.

Pedro Perandones,  
CEO Huber Instrumente AG
